- Soft Skills: **Communication, Patience, Teamwork, Problem-Solving, Accountability.**

## Projects

**SJParks**, October 2018

The city of San Jose needs a platform to send updates to users about news of their park of choice. We built this platform for the city to add new administrators, add new parks, and a login page with username and password validation using the MERN stack. We are in process of finishing and will present the project very soon.
